K-Cheeks

Compact blush, easy to blend and with excellent adhesion to the skin. It will give to the cheeks a very natural "bonne-mine" look without weighing them down. The characteristic Matt effect is given by its special and extremely thin texture that lightly revives the cheeks, providing multiple intensities of color and perfect uniformity in application.

K-Blending Sponge

Sponge designed for applying and blending face makeup, for a soft, radiant and perfectly homogeneous complexion. It helps to cover imperfections, allowing you to softly blend make-up even in the corners and in the smallest and most difficult areas to reach.
